

Webcasts

ClearPicture is pleased to announce our series of informative webcasts co-presented with our clients and co-hosted with HCI (Human Capital Institute).

To date, IBM has joined ClearPicture to discuss informative topics, such as how to address the issue of overwork and work/life balance, and why an Exit Survey is a vital part of an end-to-end engagement program. Engagement expert, Dr. Beverly Kaye, discusses how to engage employees for retention and improved organizational performance, and a large utility company shows how actions led to increased engagement scores and stock value!

View archives of our webcasts:
